

## Topic: Picture Frame

### What I should already know

- We design a product first
- We use appropriate materials to add details to a model

### Key Knowledge

#### What is the purpose of a photo frame?

It has a solid frame and a clear front to display a photograph or picture.

#### What materials can we use to decorate the photo frame?

The main frame of the photo frame will be made from wood and it can be decorate using:

- Paint
- Felt
- Stickers
- Paper
- Tissue Paper

#### How will it stand up?

We will experiment with frames and legs/stands to help support the frame.

### Vocabulary

<b>Material</b>	What something is made from.
<b>Felt</b>	A fabric material, often bright in colour.
<b>Design</b>	To make or draw a plan
<b>Joint</b>	Ways to connect wooden pieces.
<b>Stiffen</b>	To make something become stiff/stronger.
